CAREER OBJECTIVE

As a Junior Web Developer, I am seeking to contribute to web development projects with proficiency in HTML, CSS, JavaScript, and ReactJS. Committed to delivering high-quality, user-centric design, & intuitive web experiences.

SKILLS

Expertise: HTML5 | CSS3 | Bootstrap | React Bootstrap | Tailwind CSS | DaisyUI | Flowbite | JavaScript | ES6 | React.js | React Router | Git and GitHub | Firebase Authentication
Comfortable: REST API | Dev-tool and Debugging | MongoDB | Express JS | JWT | Axios | React Hook Form | Stripe
Familiar: NodeJS | NextJS | SASS
Tools: VS Code | Git | Figma | Netlify | Vercel | Dotenv | Chrome Dev Tools | Canva

PROJECTS

TasteBite | April 2023- May 2023   Live Link | GitHub > Client | Server
TasteBite is a website that country-specific cuisine and recipe searches. This project focuses on only the front-end.
- The website has secure access to exclusive content and builds a responsive, accessible, and dynamic web page
- The website features implement private route ensuring secure access to exclusive content. Implement a Firebase authentication system, enabling users to sign up and log in using email-password, Google, and GitHub accounts.
- Taste-bite website focuses solely on a particular cuisine (like Chinese, Thai, Japanese, or Italian), offering a dedicated platform for chefs, recipes, and culinary resources exclusively related to that cuisine.

Technologies usages: React Router, Firebase authentication, utilizes CSS frameworks (Tailwind CSS, DaisyUi), along with libraries (React Icons, Lazy Load, React to PDF, Toastify) for enhanced functionality.

ToyTown | May 2020 - June 2023   Live Link | GitHub > Client | Server
ToyTown is a website that sells educational-related toys (like science, language, & engineering) shop market.
- Use two-way login systems (Google and Email/Password) via Firebase for the users & use private routes & ensure user data privacy and protection.
- Implemented React Router, Context API, React Hook Form, use AOS package for simple animation, dynamic title & developing a responsive website for devices of different sizes.
- Performs CRUD operation through NodeJS and Express JS and where users can add, delete & update a toy.

Technologies usages: React Router, Firebase authentication, Integrate backend database MongoDB, server-side use NodeJS, CSS frameworks (Tailwind CSS, DaisyUI), for enhanced functionality and visual presentation, etc.

Artistry Academia | June 2023 - present   Live Link | GitHub > Client | Server
Artistry Academia is a website that is a summer camp school & that allows students to enroll and learn specific art activities. It focuses on front-end and backend developments & implements a dashboard.
- Use Tailwind CSS framework for developing a responsive website for devices and integrated Firebase for two-way sign-in methods with form validation for the users, Instructor, and admin.
- Comprises a dashboard with private routes for the users, Instructor,& admin, using JSON Web Token (JWT), Axios for authorization & stores data on MongoDB database.
- Performs CRUD operation through NodeJS and Express JS & users, instructors & admin has different role & different dashboards, and this website implemented stripe payment method.

Technologies usages: React Router, Firebase authentication, Integrate backend database MongoDB, stripe payment, server-side use NodeJS, utilizes CSS frameworks (Tailwind CSS, DaisyUI), for enhanced functionality and visual presentation, etc.

EDUCATION

BSC Hons(Chemistry) | Govt. Bangla College, Dhaka   Jan 2020 - Present

COURSES AND ACHIVEMENTS

Dec-2022 - present | Programming Hero | Complete Web Development Course With Jhankar Mahbub (Batch-7)

LANGUAGES PROFICIENCY

Fluent in Bengali and basic spoken knowledge of English
